We believe our students should be comfortable while learning. That is why we have separate practical rooms and lecture rooms that are uniquely and specifically designed to accommodate various class sizes easily, while keeping in mind that we do limit enrollment to facilitate a true learning experience. Our practical rooms are equipped with high-quality massage tables to allow for a professional and ethical learning environment. Our lecture rooms are furnished with classroom tables and chairs, many visual aids, models of the human body, wall charts, and audio/visual equipment.

As an educational facility, we recognize that when you are at the academy for any length of time, a student break room and kitchen are essential. Therefore, we provide a large rest area including chairs as well as a roomy kitchen equipped with a refrigerator, microwave, food cupboard, dining tables, and all the filtered water you can drink. We feel it is also important to know that our treatment rooms contain the amenities that you would expect in your own private practice. Each private room is furnished with a massage table, a corner shelving unit, small stereo, fan, wall lamp, and a clock. The Stretch 4 Life Academy strives to maintain a professional, yet relaxed, learning and working environment. Our reception area and administrative offices reflect that goal with classic and appealing interior design, which sets the tone for the entire academy’s atmosphere. We are proud of our academy’s appearance and reputation for excellence and feel you will be as well.

COURSE DESCRIPTION

Massage Therapy Technique – 200 Hours

Massage therapy technique training includes 125 hours of instruction in the application of Swedish Massage Techniques including: Effleurage, Petrissage, Friction, Vibration, Tapotement, and Range of Motion Exercises / Stretching, as well as 75 hours of instruction in full body therapeutic techniques including Myofascial Release, as well as other related advanced techniques such as site-specific training for common soft tissue injuries and dysfunctions. Class format includes a historical overview of massage, massage therapy tools and products, draping procedures, effects and benefits of massage, contraindications for massage, demonstration of relaxation and therapeutic techniques, classification of massage movements, and extensive supervised practice. The majority of the Swedish Massage training is hands on and takes place in the practical room. While in the practical room, students and instructors are required to maintain high standards of ethics and professionalism. During each practical massage class, students are paired up on a random basis and take turns practicing their massage routine under the supervision of an instructor.

Human Anatomy – 50 Hours

Students will gain a thorough knowledge of the human body by first establishing an understanding of the structures and organization of the human body by examining the following major body systems: Integumentary, Skeletal, Muscular, Nervous, Digestive, Excretory, Respiratory, Cardiovascular, Lymphatic, Immune, Endocrine, and Reproductive. The lectures and laboratory exercises are designed to appreciate the relationship between the science of the body systems and the healing art of massage.

Human Physiology – 25 Hours

Students will also gain a thorough knowledge of the human body by exploring the complex functions unique to human physiology as it relates to human anatomy by examining the following major body systems: Integumentary, Skeletal, Muscular, Nervous, Digestive, Excretory, Respiratory, Cardiovascular, Lymphatic, Immune, Endocrine, and Reproductive.

Kinesiology – 50 Hours

Students will obtain an integrated understanding of the human body through the exploration of the anatomy, physiology, physics, and geometry of human movement and perception of said movement in relation to the activities of muscles and joints. With all of these subjects coming together, mechanical principles that relate directly to the human body are used to study and understand complex anatomical and physiological manifestations of movement, balance, and posture.

Business Practices and Professional Ethics – 45 Hours

Students will acquire the tools to create, maintain, and grow a professional and ethical massage therapy business. State laws, rules and regulations, business organizations, tax information, and legal documentation are presented. Career path selection, marketing, practice-building techniques, and management tools are also discussed and developed.

Pathology – 40 Hours

Students will receive understanding of the structural and functional changes related to disease processes including the etiology, pathogenesis, morphologic changes, functional derangements, and clinical significance as it relates to the practice of massage. This understanding is accomplished by examining the terminology unique to the study of abnormal anatomy and physiology as well as the specific disease and infectious processes pertinent to massage therapy that can result from emotional, physical, and spiritual stresses to the human body.

Human Health and Hygiene – 20 Hours

Students will be made aware of sanitation and sterilization procedures, including disease and infection prevention as it applies to massage therapy as well as Universal Precautions. A personal health plan is created to assist each student in maintaining optimal wellness – including stress management for the massage practitioner, human relationships, personal hygiene, therapeutic stretches and exercises, and physical development conditioning consistent with the practice of massage. Students will also receive an American Red Cross First Aid and CPR certification as part of their training.

Hydrotherapy – 20 Hours

Students will get the opportunity to learn and participate in the many forms of hydrotherapy treatments, such as cryotherapy, thermo therapy, and day spa treatments. Class format includes a historical overview of hydrotherapy, application and mechanism methodology, effects and benefits of hydrotherapy, contraindications for hydrotherapy treatments, and equipment familiarization and utilization.

Internship Program – 50 Hours

The business model will be used to practice setting appointments, creating flyers, or inviting friends and family to participate in the final stage of your training.

You will have a six-week time frame in which to practice setting up appointments, -working around other therapist schedules, and committing to said appoints. Also a \$30.00 fee for each Internship client will be pay to Stretch 4 Life.

ATTENDANCE AND BEHAVIOR POLICIES

A master record of attendance indicating the date of the original class, class of instruction, and the number of scheduled hours completed by the student are maintained by the faculty in an attendance file. Each student is required to attend all classes as scheduled. Attendance deficiencies will be recorded on the daily attendance sheet and are transferred to the master record of attendance. Attendance deficiencies are to be made up during normally scheduled classes.

Absences:

A student may be terminated from the program if the student accumulates absences of more than six consecutive academy days or more than 10% of the total clock hours (50 hours) of the program. The refund policy shall apply to a student terminated due to violation of the Attendance Policy. The last date of absence will be considered as the last day of attendance as calculated and discussed in the Cancellation and Refund Policy.

A student whose enrollment is terminated for violation of the attendance policy may not re-enter before the start of the next grading period. A student may not start a program after 10% of the program has been taught except in those cases where appropriate credit for previous education has been given.

Leave of Absence:

A leave of absence for reasonable purposes acceptable to the Academy's Director shall not exceed the lesser of 30 academy days or 60 calendar days. A student shall be granted only one leave of absence for each twelve-month period. Attendance records shall clearly show the dates for which the leave of absence was granted. A written statement, as to why the leave of absence was granted, signed by both the student and the Director indicating approval, shall be placed in the individual student's file.

If the student fails to return from leave, the student will be automatically terminated and a refund made under the Cancellation and Refund Policy on page 10. The effective date of termination shall be the last date of the leave of absence.

Make-up Work:

All tardies and absences must be made up. A student that misses an examination must make it up within 14 days or a grade of zero (0) will be given. For students making up time, a tutorial rate of **\$60.00** per hour will be charged. Scheduling such make-up work is the responsibility of the student. Course work should be made up in a timely manner by scheduling make-up classes during the Academy's business hours with the front desk personnel. The Instructor will choose a Saturday during each month as a make-up day. Don't forget each make-up day is \$60.00 per hour, so don't be absent if you can possibly avoid it.

Grading System:

A student is graded on both written and practical examinations. To successfully complete each course, a student must achieve a satisfactory grade of 70% or better on written examinations and be graded as Satisfactory in the practical examinations. The grading scale is as follows:

Written Examinations:
100 – 90 A
89 - 80 B
79 - 75 C
74 – 70 D
69 or lower F

Practical Examinations:
Satisfactory performance = S
Unsatisfactory performance = U

Progress Reports:

Each student’s academic performance and practical skills will be assessed five times throughout the course and each will be accompanied by an individual progress report. These progress reports will be reviewed and discussed with the student at the end of each grading period. The first four grading periods will be approximately 5-6 weeks for day class students and will average 112.5 hours per period. All tests and assessments are reviewed with the student as soon as practical after the test or assessment. In cases where the student’s performance is unsatisfactory, the student will be offered a private conference and will be given the opportunity to review and improve their performance according to the Academy standards.

A student may be placed on probation at the discretion of the Director of the Academy. A student who is performing unsatisfactorily (74 or lower in written exams, unsatisfactory level in practical exams) at the end of a grading period will be placed on probation for the next grading period. If the student on probation achieves satisfactory progress for the next grading period, but has not

achieved the required grades to fulfill overall satisfactory progress for the program, the student's probation may be extended for one more grading period. The Director's decision in these matters is final.

When a student is placed on probation, that student will be counseled prior to returning to class and the date, action taken, and terms of the probation shall be clearly indicated on the appropriate permanent records placed within the student's file. The enrollment of a student who fails to achieve overall satisfactory progress for the program at the end of two consecutive probationary grading periods must be terminated. A student whose enrollment is terminated for unsatisfactory progress may re-enter after a minimum of one grading period.

Student Conduct:

Students are expected to maintain a professional image anytime they are present at the Academy, including the following:

- Students are required to wear scrubs anytime they are at the Academy. This includes attendance at make-up classes as well as regularly scheduled classes. Students without scrubs will be sent home and will be issued an absence.

- Students will be expected to be kind, respectful, and patient with their instructors and fellow students.
- Students are expected to clean up after themselves both within the academy setting as well as the student break room area.

Probationary Actions:

Probation, as defined by the Academy, is a period of behavioral and/or academic evaluation. A student may be placed on probation for violation of any Academy policy. The definition and duration of a probationary period will be determined by the Director. Reasons for taking a probationary action include the following:

- Absence from class – A student is allowed an accumulation of four separate class absences, tardies, or early dismissals, which must be made up at the first possible opportunity. If the time away from class exceeds time allotted or is not made up, a student may be placed on probation.
- Academic performance – A student must maintain an overall average of at least 75% on written examinations and maintain a satisfactory performance level in the practical classes. Failure to maintain satisfactory performance is cause for probationary action to be taken. After the first probation, a student may be terminated if performance remains unsatisfactory.
- Violation of Conduct Rules – A student that fails to conduct themselves in a manner that is consistent with the rules of conduct may be placed on probation or terminated at the discretion of the Director.

Conditions for Termination:

The Director of the Academy retains full and final authority over all matters relating to discipline within the Academy. Every attempt will be made to work with the student in solving problems. A student may be terminated from the Academy for any one of the following reasons:

Absences – A student may be terminated if they accumulate more than six consecutive class absences or an accumulation of more than 10% of the total clock hours (50 hours) of absences.

- Academics – A student that fails to maintain satisfactory performance on either practical or academic evaluations for more than two consecutive grading periods.
- Gross Violation of the Student Conduct Policy – Any gross violation of the Student Conduct Policy may constitute probationary action(s) and/or possible termination from the Massage

- Therapy Program. This includes, but is not limited to, engaging in verbal, physical, or sexual harassment as well as being on Academy premises under the influence of alcohol and/or drugs.
- Probation Violations – A student that violates the conditions of a probationary action may be terminated.
- Academic Dishonesty – A student that engages in scholastic fraud may be terminated.

The Cancellation and Refund Policy shall apply to a student that is terminated under the previously discussed conditions. The effective date of termination for purposes of refunds shall be the last day of the last probationary grading period. A student who returns after the enrollment was terminated for unsatisfactory progress shall be placed on probation for the next grading period. The student shall be advised of this action and the student's file documented accordingly. If the student does not maintain satisfactory progress during or at the end of this probationary period, that student will be terminated. A student that has been terminated due to a gross violation of the student conduct policy may not re-enroll.

CLASS SCHEDULES

All classes will be held at the Academy, and no field trips will be allowed. The Stretch 4 Life Academy offers two massage licensing programs: the *500 Hour Basic Massage Licensing Program* and the *750 Hour Standard Massage Licensing Program*. Each student enrollment is tracked by the Director so that no class exceeds the student/teacher ratio of 6:1 in the lecture room. No class exceeds the student/teacher ratio of 6:1 in the practical room. The start and end dates for both program's coursework, not including internship, is the same and is as follows:

Schedule	Class Dates	Completion Date	Class Days
Fall/Winter TBA Evening Classes	September	End of January for Class & Internship: Feb/March	Thur. 1pm – 8 pm Friday 9:30am – 4pm
Spring/Summer TBA Evening Classes	February	End of June for Class & Internship: July/August	Thur. 1pm – 8 pm Friday 9:30am – 4pm.

* The above mentioned date indicates the beginning and ending dates of the lecture and practical instruction coursework as well as an additional six months to complete the internship portion of the program. Since the internship portion of the program can be started prior to the ending class date, it is possible for a student to finish their internship prior to the ending class date. It is the expectation of the Academy that a student will finish their internship within six months of their ending class date or they will have to re-enroll to finish their internship program. A typical evening class student will finish their program within eight months of starting.

Internships days/times will be flexible with the student's needs. The student is responsible for fulfilling their 50 hours of Internship massages and maintaining their schedule accordingly. The business model will be used to practice setting appointments, creating flyers, or inviting friends and family to participate in the final stage of your training.

You will have a three-week time frame in which to practice setting up appointments, working around other therapist schedules, and committing to said appointments. Also a \$30.00 fee for each Internship client will be paid to Stretch 4 Life.

If you are late or miss three appointments, you will be terminated from the program.

For any late or missed appointments, you are obligated to reimburse Stretch 4 Life the \$30.00 fee since someone else will have to substitute for you. You have until June to complete Internship after such time a reenrollment fee of \$500.00 will apply.

The TDLR Massage Therapy Rules and Regulations mandate a maximum of one ten-minute break for each classroom hour of instruction. Students attending the full day class are given a ten-minute break for each classroom hour of instruction, one hour and a half for lunch from 12:00 p.m. to 1:30 p.m. Holidays are to be observed for: Easter, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Eve, Christmas Day, New Year's Eve, and New Year's Day.
